REQUIRED DISCLOSURES:

**ASSESSMENT AND RESERVE FUNDING DISCLOSURE SUMMARY
FOR CURRENT BUDGET YEAR (Required by Civil Code Sections 5300 & 5570)**

Item #'s are found on the first few pages.

1) The regular assessment per ownership interest is as per **Item #1**. Note: If assessments vary by the size or type of ownership, the assessment applicable to the ownership interest may be found on the page of the attached summary as per **Item #1**.

2) Additional regular or special assessments that have already been scheduled to be imposed or charged, regardless of the purpose, if they have been approved by the Board and/or members are as per **Item #2**. Note: If assessments vary by the size or type of ownership interest, the assessment applicable to the ownership interest may be found as per **Item #2**.

3) Based upon the most recent reserve study and other information available to the board of directors, will currently projected reserve account balances be sufficient at the end of each year to meet the association's obligation for repair and/or replacement of major components during the next 30 years?

Subject to the information available as of the date of preparation hereof:

If the ratio as per **Item #5** is equal to or exceeds 100%, the answer is "Yes" for the years shown.

If the ratio is less than 100%, the answer is "No".

If the ratios as per **Item #7** are equal to or exceed 100% over the next 5 years, the answer is "Yes".

If the ratios are less than 100%, the answer is "No".

4) If the answer to (3) is no, what additional assessments or other contributions to reserves would be necessary to ensure that sufficient reserve funds will be available each year during the next 30 years that have not yet been approved by the board or the members?

An assessment averaging the "Reserve Shortage" (if any) per unit would be necessary as per **Item #6**.

5) The board has reasonably determined that all major components are included in the reserve study and are included in its calculation.

6) Based on the method of calculation in paragraph (4) of subdivision (b) of Section 5570 of the California Civil Code, the estimated amount required in the reserve fund at the end of the current budget year is as per **Item #4**, based in whole or in part on the last reserve study or update prepared as per **Item #8a**. The projected reserve fund cash balance at the end of the current budget year is as per **Item #4**, resulting in the percentage of reserve funding being as per **Item #4**. If an alternate, but generally accepted, method of calculation is also used, the required reserve amount is explained as per **Item #4**.

7) Based on the method of calculation in paragraph (4) of subdivision (b) of Section 5570 of the California Civil Code, the estimated amount required in the reserve fund at the end of each of the next five budget years is as per **Item #7** and the projected reserve fund cash balance in each, taking into account only assessments already approved and other known revenues, is as per **Item #7**, leaving the reserve at the percent funding as per **Item #7**. If the reserve funding plan approved by the association is implemented, the projected reserve fund cash balance in each of those years and the percent funding will be as per **Item #7**.

8) Loans outstanding, if any, due from the Association are detailed as per **Item #8c**.

9) Insurance carried by the Association is summarized as per **Item #9**.

NOTE: The financial representations set forth in this summary are based on the best estimates of the preparer as of the date of preparation. The estimates are subject to change. At the time this summary was prepared, the assumed long-term before-tax interest rate earned on reserve funds was as per Item #8b, and the assumed long-term inflation rate to be applied to major component repair and replacement costs was as per Item #8b.

For the purposes of preparing this Summary Section 5570 (b) of the Civil Code states:

- (1) "Estimated remaining useful life" means the time reasonably calculated to remain before a major component will require replacement.
- (2) "Major component" has the meaning used in Section 5550. Components with an estimated remaining useful life of more than 30 years may be included in a study as a capital asset or disregarded from the reserve calculation, so long as the decision is revealed in the reserve study report and reported in the Assessment and Reserve Funding Disclosure Summary.
- (3) The form set out in subdivision (a) shall accompany each annual budget report or summary thereof that is delivered pursuant Civil Code Section 5300. The form may be supplemented or modified to clarify the information delivered, so long as the minimum information set out in subdivision (a) is provided.
- (4) For the purpose of the report and summary, the amount of reserves needed to be accumulated for a component at a given time shall be computed as the current cost of replacement or repair multiplied by the number of years the component has been in service divided by the useful life of the component. This shall not be construed to require the board to fund reserves in accordance with this calculation.

Note: The information contained in this disclosure is a PROJECTION ONLY. Because the reserve study is a projection, the estimated lives and costs of components will likely change over time depending on a variety of factors such as (i) future inflation rates, (ii) levels of maintenance applied by future boards, unknown defects in materials that may lead to premature failures, etc. As a result, some components may experience longer lives while others will experience premature failures. Some components may cost less at the time of replacement while others may cost more.

ANNUAL POLICY STATEMENT (Cont):

6. STATEMENT OF ASSESSMENT COLLECTION POLICIES (Required by Civil Code Section 5730):

NOTICE: ASSESSMENTS AND FORECLOSURE

This notice outlines some of the rights and responsibilities of owners of property in common interest developments and the associations that manage them. Please refer to the sections of the Civil Code indicated for further information. A portion of the information in this notice applies only to liens recorded on or after January 1, 2003. You may wish to consult a lawyer if you dispute an assessment.

ASSESSMENTS AND FORECLOSURE

Assessments become delinquent 15 days after they are due, unless the governing documents provide for a longer time. The failure to pay association assessments may result in the loss of an owner's property through foreclosure. Foreclosure may occur either as a result of a court action, known as judicial foreclosure, or without court action, often referred to as nonjudicial foreclosure. For liens recorded on and after January 1, 2006, an association may not use judicial or nonjudicial foreclosure to enforce that lien if the amount of the delinquent assessments or dues, exclusive of any accelerated assessments, late charges, fees, attorney's fees, interest, and costs of collection, is less than one thousand eight hundred dollars (\$1,800). For delinquent assessments or dues in excess of one thousand eight hundred dollars (\$1,800) or more than 12 months delinquent, an association may use judicial or nonjudicial foreclosure subject to the conditions set forth in Article 3 (commencing with Section 5700) of Chapter 8 of Part 5 of Division 4 of the Civil Code. When using judicial or nonjudicial foreclosure, the association records a lien on the owner's property. The owner's property may be sold to satisfy the lien if the amounts secured by the lien are not paid. (Sections 5700 through 5720 of the Civil Code, inclusive)

In a judicial or nonjudicial foreclosure, the association may recover assessments, reasonable costs of collection, reasonable attorney's fees, late charges, and interest. The association may not use nonjudicial foreclosure to collect fines or penalties, except for costs to repair common area damaged by a member or a member's guests, if the governing documents provide for this. (Section 5725 of the Civil Code)

The association must comply with the requirements of Article 2 (commencing with Section 5650) of Chapter 8 of Part 5 of Division 4 of the Civil Code when collecting delinquent assessments. If the association fails to follow these requirements, it may not record a lien on the owner's property until it has satisfied those requirements. Any additional costs that result from satisfying the requirements are the responsibility of the association. (Section 5675 of the Civil Code)

At least 30 days prior to recording a lien on an owner's separate interest, the association must provide the owner of record with certain documents by certified mail, including a description of its collection and lien enforcement procedures and the method of calculating the amount. It must also provide an itemized statement of the charges owed by the owner. An owner has a right to review the association's records to verify the debt. (Section 5660 of the Civil Code)

If a lien is recorded against an owner's property in error, the person who recorded the lien is required to record a lien release within 21 days, and to provide an owner certain documents in this regard. (Section 5685 of the Civil Code)

ANNUAL POLICY STATEMENT (Cont):

The collection practices of the association may be governed by state and federal laws regarding fair debt collection. Penalties can be imposed for debt collection practices that violate these laws

PAYMENTS

When an owner makes a payment, the owner may request a receipt, and the association is required to provide it. On the receipt, the association must indicate the date of payment and the person who received it. The association must inform owners of a mailing address for overnight payments. (Section 5655 of the Civil Code)

An owner may, but is not obligated to, pay under protest any disputed charge or sum levied by the association, including, but not limited to, an assessment, fine, penalty, late fee, collection cost, or monetary penalty imposed as a disciplinary measure, and by so doing, specifically reserve the right to contest the disputed charge or sum in court or otherwise.

An owner may dispute an assessment debt by submitting a written request for dispute resolution to the association as set forth in Article 2 (commencing with Section 5900) of Chapter 10 of Part 5 of Division 4 of the Civil Code. In addition, an association may not initiate a foreclosure without participating in alternative dispute resolution with a neutral third party as set forth in Article 3 (commencing with Section 5925) of Chapter 10 of Part 5 of Division 4 of the Civil Code, if so requested by the owner. Binding arbitration shall not be available if the association intends to initiate a judicial foreclosure.

An owner is not liable for charges, interest, and costs of collection, if it is established that the assessment was paid properly on time. (Section 5685 of the Civil Code)

MEETINGS AND PAYMENT PLANS

An owner of a separate interest that is not a time-share interest may request the association to consider a payment plan to satisfy a delinquent assessment. The association must inform owners of the standards for payment plans, if any exists. (Section 5665 of the Civil Code)

The board must meet with an owner who makes a proper written request for a meeting to discuss a payment plan when the owner has received a notice of a delinquent assessment. These payment plans must conform with the payment plan standards of the association, if they exist. (Section 5665 of the Civil Code)"

If fees, assessments, and/or late charges are unpaid at the end of any given month, a lien will be filed against the delinquent unit for the full amount due plus applicable interest, attorney fees, lien filing costs and other costs of collection.
