Elite  Entry
```
(fig a.)

```
Use ↓ ↑ Keys
To View Directory
```
(fig b.)

When operating, the Entry Phone System will alternate between the "Welcome" screen (fig a.) and the "View Directory" screen (fig b.).

Use the (↑) (↓) keys to scroll up and down through the names listed in the Entry Phone's electronic directory as shown in (fig c.) The names are listed in alphabetical order by last name.

```
Fairbanks, George
CODE: 012
```
(fig c.)

When the desired name is found, enter the corresponding 3-digit code. The system will dial the number assigned to the tenant code entered. (fig d.) After connecting, the screen will display the talk time as shown in (fig e.) If the resident wants to allow access to the visitor, they simply press (or dial) "9" for vehicular gate entrances, or "5" for door or pedestrian gate . If the resident wants to deny access, they simply hang up the phone.
